

BlackRidge Technology Partners with Visionary Healthcare Technology Provider ImagineMed™ to Improve Privacy and Authenticity of Patient Data

Partnership Delivers New Security and Privacy Capabilities to Protect Innovative ImagineMed Delivery Model

RENO, Nev. – Nov. 15, 2018 – [BlackRidge Technology International, Inc.](#) (OTCQB: BRTI), a leading provider of next-generation cyber defense solutions, is partnering with leading healthcare technology provider ImagineMed™, parent company of Telistat™ and Monitor Me™, to protect remotely monitored patient data and safeguard ImagineMed’s delivery model. The partnership allows BlackRidge to deliver a software-defined security perimeter that protects patient data both at rest and during transmission.

ImagineMed has developed a comprehensive and cost-effective solution for care within the home, Monitor Me, which integrates telemedicine and remote monitoring across the healthcare continuum. To secure the transmission, analysis, and management of this sensitive patient data, BlackRidge Transport Access Control will be used to provide real-time authentication and enforcement of security policy prior to a network session being established. This solution creates a software-defined perimeter that ensures that only identified and authorized users within the Monitor Me network have access to patient data for analysis and care, and it protects the distributed delivery model from cyberattacks.

“Our driving mission is to develop innovative technology and concepts which are transformative in the delivery of healthcare services to seniors. Our partnership with BlackRidge Technology ensures that the security and privacy of our patient’s health data is paramount in executing this vision,” stated Dr. Anthony J. Bacchi, CEO and founder of ImagineMed.

The Monitor Me model will be supported in partnership with the Marist College Cloud Computing and Analytics Center, located in Poughkeepsie, New York. Marist provides key incubator and accelerator support services to both BlackRidge Technology and ImagineMed. The College is currently working with ImagineMed to develop advanced predictive analytics collected from monitored real-time telemetry data.

“Dr. Bacchi and his team have the vision, capability, and desire to disrupt the healthcare market in order to improve the care and support of an ever-growing senior population. By introducing and working with these two dynamic entrepreneurial companies, Marist is supporting innovative cross-collaboration and development within the Mid-Hudson Valley’s tech start-up ecosystem. ImagineMed will be able to provide the highest level of secure technology by using BlackRidge’s secure authentication to protect and disrupt antiquated healthcare delivery systems currently in the market,” says Bill Thirsk, vice president of information technology / CIO of Marist College.

“BlackRidge Technology is thrilled to be partnering with ImagineMed and Marist College to secure the Monitor Me delivery model. We look forward to continuing to safeguard the services that lead to better care through reduced readmissions, lower healthcare costs and increased patient satisfaction,” said Bob Graham, chairman and CEO of BlackRidge Technology.

About ImagineMed

ImagineMed provides comprehensive telemedicine and remote health monitoring solutions that reduce emergency room visits and hospital admissions to facilitate aging at home. ImagineMed combines proprietary, state-of-the-art patch and telemedicine monitoring technology with 24/7 real-time hemodynamic and predictive analytics for interpretation and intervention by a multidisciplinary team located in a Monitoring Intervention Center (MIC). For more information, visit ImagineMed at www.imagine-med.com.

About Marist

Located on the banks of the historic Hudson River and at its Florence, Italy branch campus, Marist College is a comprehensive, independent institution grounded in the liberal arts. Marist is consistently recognized for excellence by The Princeton Review (“Colleges That Create Futures” and “The Best 384 Colleges”), U.S. News & World Report (8th Best Regional University/North), Kiplinger’s Personal Finance (“Best College Values”) and others. Marist educates approximately 5,000 traditional-age undergraduate students and 1,400 adult and graduate students in 47 undergraduate majors and numerous graduate programs, including fully online MBA, MPA, MS and MA degrees. www.marist.edu.

About BlackRidge Technology

BlackRidge Technology provides an adaptive cyber defense solution that enables our customers to deliver more secure and resilient business services in today’s rapidly evolving technology and cyber threat environments. The BlackRidge Adaptive Trust solution provides end-to-end security that proactively isolates cloud services, protects servers and segments networks. Our patented First Packet Authentication™ technology authenticates user and device identity and enforces security policy on the first packet of network sessions. This new level of real-time protection blocks or redirects unidentified and unauthorized traffic to stop attacks and unauthorized access. BlackRidge was founded in 2010 to commercialize its military-grade and patented network security technology. For more information, visit www.blackridge.us.

Forward-Looking Statements

Statements made in this release include forward-looking statements within the meaning of federal securities laws. Forward-looking statements can be identified by the use of words such as “may,” “will,” “plan,” “should,” “expect,” “anticipate,” “estimate,” “continue,” or comparable terminology. While management has based any forward-looking statements included in this release on its current expectations, the information on which such expectations were based may change. Forward-looking statements involve inherent risks and uncertainties which could cause actual results to differ materially from those in the forward-looking statements, as a result of various factors including those risks and uncertainties described in the Risk Factors and in Management’s Discussion and Analysis of Financial Condition and Results of Operations sections of our Annual Reports on Form 10-K, as may be supplemented or amended by our Quarterly Report on Form 10-Q and other public filings with the Securities and Exchange Commission (the “SEC”), which can be found on the SEC’s website at www.sec.gov. We urge you to consider those risks and uncertainties in evaluating our forward-looking

statements. We caution readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. Except as otherwise required by the federal securities laws, we disclaim any obligation or undertaking to publicly release any updates or revisions to any forward-looking statement contained herein (or elsewhere) to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.
